## Revealing inclinations to folds on river bets

**Red stats** – folds on river at various bet sizes as compared to average figures on your limit.

Opponents may react more trustfully to bets of specific sizes. I.e. the opponent may call high bets more often in presumption that his rival bluffs "all along", or fold low bets suspecting the rival wants to value-bet bit-by-bit.

This block of stats allows to accurately choose bets for bluffing and value-betting to make your opponent call more often when you need it and lay down when you are bluffing.

more often vs average	
fold vs bet IP	fold vs bet OOP
-44	-24
25	-32
9	-18
-3	-31
9	-58

**More often vs average fold vs bet:** Stats highlighted with red shows how much more often than average the opponent folds vs bets of specific sizes.

**Explanation:**

**-44%** - caller out of position folds vs bet 44% less often for bets 10%-40% of pot

**25%** - caller in position folds vs bet 25% more often for bets 40%-60% of pot

Plus – he folds, Minus – he does not fold.

For bluffs: choose the bet size with positive stat (**25%**)

For value bet: choose the bet size with negative stat (**-44%**)

### Badges

Group of badges that show number of leaks/exploits on postflop for Preflop raiser(PFR), Caller IP/OOP and for 3bet pots:

- Number of leaks/exploits of preflop raiser in position (PFR IP)
- Number of leaks/exploits of preflop raiser out of position (PFR OOP)
- Number of leaks/exploits of preflop raise in position (Caller IP)
- Number of leaks/exploits of preflop raise out of position (Caller OOP)

- Badges for 3bet pots

Group of badges for classification of opponents by aggression and a profit on postflop:

- PFR/Preflop raiser: High aggression and High Profit
- PFR/Preflop raiser: High aggression and Low Profit
- PFR/Preflop raiser: Low aggression and Low Profit
- Caller: High Profit
- Caller: Low Profit
- Badges for 3bet pots

*This group of two badges will help you with table selection and you will see weak players(regulars) against which you win*

- High Profit of Hero vs Opponent
  - Minus Profit of Hero vs Opponent
- (badges will show when profit of Hero against this opponent is low or bigger on 15% of average value)*
