## Block of stats **Bet & Win**

Statistics of wins on **river** with different bet sizes.

*Some opponents bet little to be called and much to be laid down.*

*Others bet much when bluffing and little for value.*

*Using this block of Bet&Win stats you can easier understand which bet sizes the opponent uses for bluffing and value.*

*The lower the win at showdown percentage for a specific size, the more bluffs, and vice versa – the higher the win rate, the more often value bets are used.*
